

## Aleratec 1:5 HDD Cruiser™ Hard Disk Drive Duplicator and Sanitizer Part No. 350104

The Aleratec 1:5 HDD Cruiser simultaneously duplicates up to 5 Hard Disk Drives simultaneously without a computer; an essential tool for installing new or upgrading multiple computer systems. It can also sanitize up to 6 HDDs at once to assure that all confidential data left on old drives is unreadable. The sanitizing capability is particularly important with the rapid advancement of hard drives; upgrading existing drives is commonplace and it is important that confidential data be removed from the old drives before they are recycled or discarded. The 1:5 HDD Cruiser is a stand alone unit so there is no need to tie up a computer for hours running complex software to duplicate or sanitize hard disk drives. The 1:5 HDD Cruiser's drive bays are equipped with quick and easy loading doors. Simply open the drive bay door to load or unload a drive. Slide the drive in the drive bay and close the drive bay door and high integrity electrical and data connections are made automatically. Each drive bay has Non Scratch SATA connectors designed for greater than 50,000 swap cycles minimizing worries about drive connection issues.

### Stand Alone, No Computer Required

- Duplicate up to 5 Hard Drives simultaneously
- Sanitize up to 6 Hard Drives simultaneously with Overwrites as recommended by Government Agencies
  - ✓ One Pass
  - ✓ Three Pass with Verify
  - ✓ Seven Pass DOD Wipe
