

1:5 HDD Copy Cruiser **HIGH-SPEED**[™]

Product Features

- Duplicate 5 or sanitize 6 hard disk drives at once
- Up to 120 MB/s copy rates
- Third-party certified 7-Pass wipe sanitization function; Secure Erase, 1-Pass or 3-Pass with Verify
- LED indicators on each HDD bay that visually confirm successful completion for the hard drive
- Lockable Quick Load Drive Doors with Non-Scratch SATA Connectors
- Supports 3.5" SATA HDDs and Solid State Drives (SSDs)
- Supports 2.5" SATA HDDs and SSDs with optional Aleratec adapters (P/N 350106), not included

UP TO **120 MBS DATA TRANSFER SPEEDS**

The Aleratec 1:5 HDD Copy Cruiser High-Speed is an industrial-strength, standalone hard disk drive duplicator that can create 5 clone hard disk drives simultaneously at speeds up to a blazing 120MB/s. It can also securely wipe all the data from up to 6 hard disk drives at a time with Secure Erase or your choice of 3 comprehensive sanitization algorithms: a 1-pass wipe, a 3-pass wipe with verify, or a powerful DoD 5220.22-M 7-pass wipe. In fact, a leading provider of data recovery services has independently verified that the data on hard drives wiped by the 7-pass overwrite sanitization feature on this unit have been “permanently destroyed” and meet the criteria of NIST (National Institute of Standards and Technology) 800-88.

Part Number: **350125**

1:5 HDD Copy Cruiser High-Speed™

Technical Specifications

Operating Temperature:

41°F to 122°F / 5°C to 50°C

Humidity:

15% - 80% RH

Power Requirements: 100V-240V AC, 50/60Hz

Dimensions (LxWxH): 430 mm x 190 mm x 355 mm
16.9" x 7.5" x 14"

Weight: 8.6 kg / 19 lb

Warranty: Limited 1 year parts and labor

Country of Origin: Assembled in the USA
from components sourced globally

UPC Code: 808068-00866-8

Duplication

The 1:5 HDD Copy Cruiser High-Speed performs a sector-by-sector copy from a single source hard disk to up to five target drives, regardless of brand, operating system or format of the drives. The copy includes partition and boot sector information for a perfect clone.

Secure Erase and Overwrite Sanitization

Responsible organizations and individuals understand that the sensitive, private data on their disposed or redeployed hard disk drives are vulnerable if those drives are not properly sanitized. The 1:5 HDD Copy Cruiser High-Speed these efforts by offering independently verified overwrite sanitization, as well as Secure Erase. Secure Erase is a National Institute of Standards and Technology 800-88 accepted technique for properly purging hard drives. This method is supported by almost all modern SATA hard disk drives.
