

## TOUCHSTONE'S GUN RACK LIFT

Introducing Touchstone's unique Gun Rack Lift Cabinet. This unique cabinet can be custom finished to match any of Touchstone's line of TV Lift Cabinets, or even custom finished. Any of Touchstone's full size cabinets can be outfitted with a custom insert that will hold a variety of rifles, shotguns, and handguns. In addition the insert can be custom designed with a fold down compartment for ammo or accessories.

All Touchstone gun cabinets are custom built and finished to order. The cabinet is controlled with a radio frequency remote which assures that no unauthorized person can gain access without it.

The Touchstone full size cabinets have 6 adjustable shelves behind the front doors for extra storage.

Touchstone also has a new handgun hideaway cabinet. This small, thin cabinet can accommodate up to 15 hand guns and accessories and like the full size cabinet is controlled with a radio frequency remote so guns stay secure but can be easily accessed if needed.

### PROUDLY DISPLAY WHEN YOU CHOOSE

The great thing about this cabinet is that no one would ever imagine it could be filled with various guns. The cabinets will fit any decor and with the push of a button will show off your most prized possessions and family heirlooms.
