

Move Up To Rimage!

R I M A G E[®]

Are you producing CDs, DVDs, or Blu-ray Discs™ today?

If so, you already know the value of using optical discs to deliver or archive important digital information. You are recording, printing and labeling discs for a delivery vehicle or storage medium.

What if you could also:

- Record and print automatically without moving discs from a recorder to a printer by hand
- Print indelible discs with full color printing — just like credit cards
- Password and/or copy protect your disc contents
- Produce CDs, DVDs, and BDs — all from the same networked system

**\$2000
Savings**

You can now produce discs, one at a time, or by the hundreds, that are the best in record quality, the best in print quality, through the most robust disc producing technology available — all at a great new, lower price.

For a limited time, you can obtain:

- A Rimage Professional™ 3400 system for **less than \$5000**
- A Rimage Professional 5400N embedded system for **less than \$10,000.**
