

SPECTRA THEATER FRAME (70-3742 or 70-4652)

The Spectra Theater Frame is the simple, stylish and economical way to transform a flat screen TV into a custom Home Theater. The sweeping curves of the Spectra make a bold contemporary statement. Finished in a rich mocha stain, the Spectra is sure to provide a sophisticated custom home theater look for your customers, without having to spend thousands of dollars.

Quality Construction:

- High-end custom home theater look and feel in 20 minutes
- Case good furniture quality craftsmanship with in-house design and production
- Made with poplar and birch veneers

Unique Features:

- Includes proprietary "TV-Speaker Panel" that allows home theater speakers to be concealed & installed out-of-sight
- Concealed speakers offer un-matched sound that simple wall mounting cannot provide
- TV-Speaker Panel provides extra contrast for a more vivid viewing experience
- Available in 2 sizes – Small (for 37", 40" and 42" televisions) and Large (for 46", 47", 50" and 52" televisions)

Easy Installation:

- No contractors required—proprietary interlocking assembly system and step-by-step instructions
- Simple installation – one board mounting system and customized installation kit with level and mounting templates
