

Pro BD-RE

FalconMedia Pro BD-RE has the same Japanese technology and materials background as the Pro BD-R but with the addition of a re-writable capability in the region of 1000 times, FalconMedia Pro BD-RE, offers an enormous data storage capacity of 25GB, allowing two hours of full HD video or capacity for an extensive data archive

FalconMedia Pro BD-RE offers very safe, durable back-up support that is far more robust than conventional hard drive storage.

FalconMedia Pro BD-RE ensures best performance and full compatibility with BD recorders and PC drives.

FalconMedia Pro BD-RE features the UHC protection technology, protecting your data from harsh handling.

FalconMedia Pro BD-RE is available with professional inkjet and thermal hub printable surfaces, fully compatible with popular publishers.
