

6-Panel Template

The interior guideline represents the safety margin, the middle guideline represents the cut line and the exterior guideline represents the bleed line. If your design has art that goes all the way to the edges, then you'll need to extend the art to the bleed line. When setting up your art for the inside left, inside center and inside right, you'll also need to flip your art 180 degrees (upside down) before submitting it.

bleed line
cut line
art area

INSIDE RIGHT
(the inside panel of the interior flap)
This is where the CD cleartray sits.

INSIDE CENTER
(the inside panel of the back panel)

INSIDE LEFT
(the inside panel of the front panel)
