

Unattended Disc Printing & Recording

Churches, schools, sales and marketing departments, government offices, videographers, and recording studios alike will benefit from the ease, speed, affordability, and professional results derived from the G4 Disc Publisher. Microboards' latest innovation makes the process of producing professional CDs, DVDs, and Blu-ray Discs in mid-to-high volumes effortless. Anyone can easily operate the device with its intuitive user interface. Set it up, walk away and the 50-disc capacity enables automatic unattended burning and printing of all your discs. DiscPlace Technology provides improved loading and reliability; and with easy disc alignment calibration, you can count on the G4 to meet your demands for reliable operation.

Fast throughput is no problem for the G4, which provides high-speed 8X Blu-ray, 24X DVD, and 48X CD recording on virtually any type of disc, including Dual Layer and connects through a single USB cable. After recording, it can easily finish discs with superior disc printing capabilities. The process is fast and cost-effective—it's a device that delivers discs with text and graphics in less than 20 seconds, and for just 25¢ per disc (full color, full coverage). Microboards Publishers all come with network

software included. With PrintWrite 2 software, PC users can put the G4 Publisher on the network, and even share it across several departments, enabling professional disc publishing across the enterprise.

SureThing label design software enables users to create labels with a professional flair. And whether you're printing full-color, full-coverage discs or light coverage with text-only, you'll enjoy results of the highest quality. Our 4th-generation disc handling technology provides smooth, clean images; and HP inkjet technology, with consistently brilliant color—in text and images—on each and every disc.

Unattended Automated Disc Printing

Churches, schools, sales and marketing departments, government offices, videographers, and recording studios alike will benefit from the ease, speed, affordability, and professional results derived from the Microboards G4 Auto Printer.

You are certain to make a positive impression with finished CDs, DVDs, and Blu-ray Discs that look amazing, thanks to HP inkjet technology and the vibrant colors derived from HP inks. When you use the G4 Auto Printer, the process of producing professionally finished discs—in mid-to-high volumes—is nearly effortless. Anyone—even novice users—can easily operate the printer, thanks to a radically intuitive user interface and labeling software, designed specifically for the Microboards product line. Set it up and walk away—the 50-disc capacity enables automatic unattended printing of all your discs without hiccup.

The industrial G4 Auto Printer is your answer to printing discs quickly and cost-effectively—delivering discs with both text and graphics in less than 20 seconds and for only 25¢ per disc. SureThing label design software enables you to

create labels with a professional flair. And whether you're printing full-color, full-coverage discs or light coverage with text only, you'll enjoy results of the highest quality.

Our 4th generation disc handling technology provides smooth, clean images; and HP inkjet technology provides consistently brilliant color—in text and images—on each and every disc.

Take your efforts to the next level with the latest Microboards innovation, and our service and support technicians who are always available—if or when you need them.
