

# MOVE UP TO RIMAGE EVEREST® TECHNOLOGY AT A PRICE YOU CAN AFFORD

**Now it's even more affordable to buy the Rimage Professional™ 3410. Featured with CD/DVD or Blu-ray Disc™ drives.**

The Professional 3410 is ideal for businesses seeking to upgrade from inkjet to high-quality thermal retransfer printing, which is the technology used for customized credit and debit cards. The credit card market, like the optical disc market, requires high quality color, high resolution, great durability, permanence and low cost per print, and thermal retransfer printing delivers it all.

## Hardware:

- Two front-swappable recorders
- 150 disc input capacity
- 5 disc external output bin (optional 50 disc output bin available)

## Rimage Software Suite:

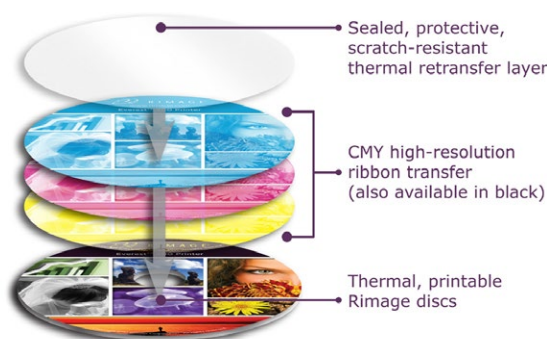

- CD Designer Software - Easy to use label designer
- QuickDisc and WebQD Software - Easy to use disc publishing software
- Rimage System Manager and WebRSM
- Rimage Software Suite allows system to be networked

The integrated, state-of-the-art Rimage Everest thermal retransfer printer in the 3410 system permanently fuses waterproof, scratchproof, photo-realistic images to the surface of the disc. Printing is faster and has a lower cost-per-disc than inkjet printers.

This special pricing will end on September 30, 2016.  
Offer valid in the Americas only and while supplies last.

This offer is not valid in conjunction with any other promotion or trade-in.
